WHAT TEACHERS ARE SAYING ABOUT...

CREATED FOR LEARNING

Such an awesome time saver!

I've used this with both my 7th and 8th graders. They have absolutely loved it! Some of my reluctant readers even commented on how they can pass the quizzes. A fantastic unit that I have recommended to other teachers at my school.

You have made my life easier with this! Thank you for the excellent work!!

I love this unit! Your units are amazing!

This was a perfect novel study. I love that the questions not only helped my daughter review the information from the chapters, but really think about what was happening and the moral issues from the story. Very well done! The powerpoint giving background information on World War II was wonderfully done, and helped my daughter to get a feel for what was happening at the time.

I love this unit! I bought a different unit from another provider outside TpT, and comparatively, this one is more creative and definitely more reliable. I haven't had to correct any proofing errors. Love the chosen graphics as well. The QuickWrites are thought-and conversation-provoking as well. I'm really enjoying the depth my students and I are achieving together. This package is a great complement to the book as I help usher them into high school and more mature, analytical thinking.

My students really enjoyed working with this unit. It challenged them to think and go in depth with the book. :) I have recommended this seller and the other units that I know my colleagues do, to them.

I love your products. I can't wait to use them.

One of the best resources I have purchased on TPT. I highly recommend it. I had students who already read NTS but with my new spin and depth of the resources, they couldn't wait each day to read and work on the novel. The Quickwrites created a very lively dialogue with all my students very engaged in the lessons.

This is an excellent source for this book!!!! I am very excited to start reading this story with my students and I don't have to worry about creating anything for it. You have thought of everything! Thank you for all that you have done for this book!!!!
